

ANIMAL TRANSPORT

When you are dealing with animals...

Imagine that a snow leopard should be sent from a zoo in Lausanne to a zoo in California (as was the case in 2015. Transport executed by Apextrans AG: <http://www.Tierwelt.ch/?rub=4496&id=40531>) or your beloved dog has to move with you to the USA.

In both cases, a fast, individual and safe transport is important. If you are dealing with the transport of your beloved animals, you can profit from our years of experience with the air freight and street transport of animals.

Apextrans AG offers appropriate transport for all types of animals permitted for transportation. The handling and transport processes from our branches in Zürich and Genf are adjusted to the specific needs of your respective animal delivery. At all times, the strict regulations from the "Live Animals Regulations" from the IATA and the "Convention on international Trade in Endangered Species" are complied with.

All of this is not a problem for us.

Our employees receive continual training. This guarantees transport handling according to the newest standards.

Together with our long-standing partners, we gladly take over the following for you:

- Pick-up / delivery throughout Europe
- Worldwide air freight transport according to IATA standards
- The customs processing including veterinary processing if necessary

We would be happy to provide you with consultation and create an individual offer for your transport.

We are gladly available for any further questions and look forward to hearing from you.
